

Dear Bubble Bubbler,

Welcome to the magical world of Bubbles!

Thank you for your enquiry regarding the Bubble Buddi, the latest party accessory for all occasions.

For hours of bubble fun, the Bubble Machine is the perfect party entertainment, and it keeps kids of all ages entertained for hours. But be warned - don't be upset when your other party activities are ignored. I have had a few disappointed moms' who have hired jumping castles etc, but the kids have only been interested in the bubbles.

Bubble Buddi is so easy to use. It is small, compact and easily operated. You don't need electricity, as it works off of a battery, so no worrying about extension cords or setting up your party around a plug point. It can go anywhere. With the click of a button, the bubbles stream out, until you decide to turn it off.

So, for kids parties, hang it in a tree, place it up high on a jungle gym, outside next to the pool or anywhere in the garden.

For weddings, place it outside of your church, walking down the aisle, when you have your photo's taken or on your dance floor. The options are endless.

Bubble Buddi adds a touch of magic to any celebration.

As the bubble mixture is liquid, it would be best used outside. If need be, it can be used inside, just make sure your floor does not become too slippery. The bubble mixture is non-toxic, and does not stain, so don't worry about stains on your kid's clothes or your wedding dress.

Collection of the Bubble Buddi is from Thursday during office hours from the NBS Building, 5th Floor, Terminus Street, East London. This is the same address it needs to be returned to by Monday before 2pm.
